**TumbleKids with Parent
(1 & 2 Years)**

TumbleKids with Parent is family fun... wrapped in a professionally planned, educationally sound program of developmental movements and sensory motor experiences. The program is designed to guide you in helping your child 12 months through 2 years of age reach his or her physical, mental and emotional potential. And, it's accomplished in a truly enjoyable environment through the delightful medium of play. Activities include music, finger plays, pretend play, climbing, jumping, beginning tumbling, and other pre-gymnastics skills.

**TumbleKids with Parent
(2½-3½ Years)**

This is a transition class for those who are ready for a bit more structure. Elements from both programs will be combined with emphasis on learning how to follow learning circuits independently. **Children MUST be 2 years, 6 months before the beginning of the term.**

TumbleKids
(4-5 years)**

Held at the same time as 1-2 years with parent. These classes will be held in our mezzanine and in a small area of our big gym. Equipment used and all activities will be the same as in our regular TumbleKids classes.

**TumbleKids
(3 Years and 4-5 Years)**

The TumbleKids program has two primary goals. First, to raise each child's confidence level by encouraging them to go beyond their own expectations and perceived willingness to try. Secondly, to develop each child's kinesthetic awareness, physical ability, and coordination. Gymnastics movement patterns and skills, as well as other developmental movements, are the "tools" we use to challenge each child to go beyond their self-imposed boundaries. Then, gradually, by design these "tools" become the object of our secondary goal...teaching and refining gymnastics movement patterns and skills. This broad-based approach helps prepare each child for future involvement in all athletics including, of course, gymnastics. But please, don't tell your child about these goals...they think TumbleKids is just Pure Fun!
